# Perfect Image Showband

For over 18 years, this band has been satisfying party goers all over the United States. Based on the Gulf Coast, they have been featured at venues from California to Florida, including private parties in Las Vegas and in the Bahamas. Whether opening for the O Jays or playing at The Breakers in Palm Beach, they get rave reviews everywhere they play. They are a guaranteed hit, and you and your audience will be happy you booked them. Full variety, from Motown to country, big band to pop and rock-this band can do it all. They can keep it "nice and easy" for the first set-as in a dinner dance or wedding reception, then kick it up as strong as you want for the dance sets. Dependable, professional, competent and easy to work with. The core band is 5 guys plus the female vocalist. For that extra punch and pizzaz, add the optional trumpet and sax players, to make an eight piece powerhouse act. Call today for pricing & availability.
